Custom Mineral Infusion

BREAK THROUGH INNOVATION

6 Game-Changing Features

Design Revolution	Angular aesthetics, a visual breakthrough
Dual Flow Mastery	Purified water (for cooking) + RO water (for direct drink) -1 machine, 2 solutions
Tailored Wellness	Custom mineral addition in Stage 3 filter (calcium, magnesium, etc.)
Scientific Precision	0.0001μm filtration (viruses, bacteria, heavy metals eliminated)

Eco-Efficiency	65% new water efficiency standard — more clean water, less waste
Effortless Maintenance	One-click cartridge ejection, no water/power shutdown, tool-free

ANGULAR ELEGANCE

A Statement Piece

Ditch the “soft curves” trend. BSK-M3-RO’s sleek angular silhouette adds a touch of modern luxury to any kitchen — whether minimalist, industrial, or contemporary. It’s not just a purifier; it’s a style upgrade.

TDS/PPM REAL-TIME DISPLAY

Making the Purity of Every Drop Visible

From "blind drinking" to "informed drinking" —
— water purity, clear at a glance.

DUAL OUTPUT

Smart Water for Every Need

RO Water

0.0001μm purified, ideal for baby formula, coffee, or straight-up hydration

For Direct Drink

Purified Water

Retains natural minerals, perfect for washing veggies, making rice, or boiling soup-unlocks food’s true flavor

For Cooking

CUSTOMIZED TASTE

Stage 3 Customization: Your Water, Your Way

Is regular pure water "too pure and bland"? BSK-M3-RO lets you customize Stage 3 filter with minerals . Perfect for families wanting “nutrient-rich” water .

FINE

FILTRATION & ENERGY SAVING

0.0001μm Precision
65% Water Efficiency

99.99 %

Purification Power

RO membrane traps 99.99% contaminants (viruses, bacteria, heavy metals, antibiotics) .

65 %

Eco-Friendly

65% water efficiency
(new national standard) .

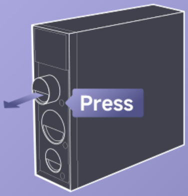
QUICK CORE REPLACEMENT

DESIGN

Tool-Free
30-Second Cartridge Replacement

Forget complicated tools or plumber calls!
One-click ejection makes filter swap a breeze:

1 **Press “Eject”**
old cartridge pops out.



2 **Insert new cartridge**
it locks in place.

3 **Done !**

No need to cut off water and electricity

EXCEPTIONAL DESIG

Tankless Design + Integrated Water Path

save
50%

Space Saver

Tankless design frees up 50% under-sink space , no more secondary contamination from stagnant water

reduce 80%

Leak-Proof Safety

3-stage integrated water path reduces joints by 80% — zero leak risk.

AROUND-

THE-CLOCK

Your 24/7 Water Butler

All-scenario companion: 24-hour guard
from baby to office

Baby Care

Pure RO water for formula — gentle on tummies.

Daily Hydration

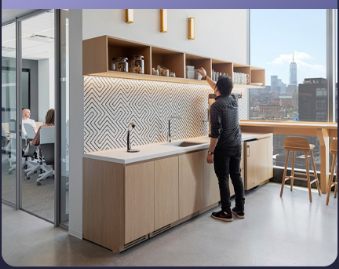
Crisp, clean RO water straight from the tap.

Cooking Brewing

Purified water enhances food flavor; RO water perfects coffee/tea.

Office Ready

Compact design fits under office sinks — pure water on demand.



KEY SPECS

Spec Table

Model	800G	1000G
Rated Flow	2L/min	2.5L/min
Total Purified Water	6000L	
RO Capacity	800G	1000G
Dimensions	430×130×380mm	
Filter	PCB+RO+CB (Stage 3 Customizable)	
Power	80W	100W
Safety	Hygiene Certifications • Class II Protection
